

# FREE GUIDED TOURS

What is an orchid?      Where do orchids come from?  
Whose plants are these?      How are exhibits staged?  
Who are the vendors?      How does the judging work?  
What do the ribbons mean?      Can I grow that one?

*Learn the answers to these and other questions during a thirty minute walk through the exhibit hall. After meandering among thousands of beautiful blooms with a knowledgeable grower, you'll never think of orchids the same way again.*
